Howard Flax's center assault at the eve of his twenty fifth marriage ceremony anniversary complicates his wife's plans to go away him. (Nancy Pearl)

I learn this almost immediately after studying Wolitzer's more modern *An to be had Man*, which I loved a lot more. It really is funny, in *Silver* I'll see the kernels of numerous plot issues and characters she expands on and refines (to even more pleasing effect) in *An on hand Man*. *Silver* is enjoyable, but additionally very *Silver* dated and lots more and plenty rougher round the edges--less polished than her later work. Thankfully, Wolitzer's writing turns out to have more desirable with time. I need to learn extra of her work, yet I believe I will persist with her newer stuff.
