okay... so im giving this complete sequence Slam Dunk, Tome 21 (Slam Dunk #21) five stars, Slam Dunk, Tome 21 (Slam Dunk #21) now not for it really is literary content material (it is manga afterall!) yet for the nostalgia it brings me and its humor. i learn this entire sequence because it used to be being released again within the early-mid 90s, while i used to be in junior excessive and excessive school. I learn the korean translation because it was once an important hit in korea on the time. i have in mind going to the neighborhood book place each Slam Dunk, Tome 21 (Slam Dunk #21) months for the recent copy. the girl on the book shop continuously kept one for me. in the course of my final journey again domestic to korea, i attempted to convey again the entire set (i pressured my mom and dad to not throw them away) yet couldnt healthy it in my luggage. i in simple terms introduced again books 1-3 and browse all of them in a single evening. mother is meant to mail the remainder to me and i am eagerly looking ahead to them. im uncertain if this sequence is translated in english and honestly, im uncertain if it'll translate good (lost in translation is going either ways) yet i actually loved this sequence as a child and thus far books 1-3 have held up for me and that i cant wait to re-read all 35 books.
