Linda Greenlaw

At *Slipknot (Jane Bunker Mystery #1)* last, she *Slipknot (Jane Bunker Mystery #1)* satisfies their starvation with this sharp-witted, compulsively readable mystery, the 1st in a chain that includes marine investigator Jane Bunker. whilst Jane strikes again to the sleepy Maine fishing group the place she used to be born, it really is to flee the seamy crime scenes and unsavory characters that crossed her course in Miami. absolutely no matter what crimes are dedicated in touristy, idyllic eco-friendly Haven will not contain something as nasty as what she observed in Florida. it is a bit of a shock, then, whilst Nick Dow, town drunk, turns up *Slipknot (Jane Bunker Mystery #1)* dead, and it isn't the straightforward coincidence that everybody assumes it to be. Jane quickly discovers that Dow wasn't even a drunk--it used to be all an act. yet why? And what does it need to do with a heated city corridor assembly approximately fishing rights and paternity suits? The extra Jane digs, the extra harassed she gets. in basic terms issues are certain: not anything is what it seems; and the full city is in every one other's business. yet it isn't till Jane swiftly hops on a ship with the killer--a boat that unexpectedly heads out to sea--that issues turn into downright risky . . . As she proved within the *Hungry Ocean*, not anyone is aware the ocean like Linda Greenlaw. And as she proved within the *Lobster Chronicles*, not anyone has a greater manner with the telling information of Maine village life. This new secret sequence positive aspects every little thing readers want: a good setting, fabulous characters, an genuine and unique detective--and a narrative that would maintain them at the fringe of their seats.
