Indigo summer season and her boyfriend, Marcus Carter, have stayed good via lots of drama. Now Marcus is a senior, and he is already acquired his reputation letter from Harvard. Indigo is familiar with how Step Up (Indigo Summer #5) tough he is labored for this chance. yet along with his destiny taking a look so bright, Indigo by surprise has doubts approximately the place she matches into his life—especially while Marcus meets a beautiful, brainy premed scholar in the course of a campus visit. Indigo and Marcus have survived separation and temptation before. yet this time, every little thing feels different, and Marcus must work out the place his center lies. But as Step Up (Indigo Summer #5) soon as he is made up his mind, will Indigo nonetheless be expecting him?

This was once a very cute, YA novel. i used to be a bit iffy on it at first, however it received extra fascinating because it went on. I used to be kinda eliminate before everything by means of the truth that the 1st couple chapters within the booklet are narrated through of the most characters, Vance and Tameka. the explanation this afflicted me used to be simply because those aren't pointed out anyplace within the synopsis at the again of the book. Now i do know all tales have subplots, yet during this tale it appeared extra like this used to be Vance/Tameka's story, and Marcus/Indigo have been the subplot and that i would've cherished for that to be pointed out within the booklet summary. But I did recover from that. Tameka is 16 years previous and pregnant with Vance's baby. Vance has long gone off to Grambling country college for his freshman 12 months at college. He makes every kind of supplies to Tameka sooner than leaving, approximately how he enjoyed her and may regularly be there for her and the baby. yet you recognize what occurs to oldsters when they get to college. I relatively loved either characters of Vance and Tameka. nor is perfect, and so they have been awarded in a pragmatic demeanour and that i did not suppose like both of them was once unsuitable during this situation, simply that they have been either younger and on the height in their lives and made a mistake. i am joyful the tale ended with either one of them in an excellent place. the single factor I would've loved to grasp used to be if Tameka and Sean ever acquired together. He was once a very candy boy also, and that i loved how great he used to be to Tameka in the course of their situation. Then there has been Marcus and Indigo's story, which reflected Vance/Tameka's in that Marcus used to be going away in the course of the summer season for a software at Harvard college and leaving Indigo at home. even supposing he wasn't a school pupil yet, he additionally acquired Step Up (Indigo Summer #5) stuck up within the new women he met on campus. normally i discovered their tale a bit boring, in particular given that initially it was once going to very same means as Vance and Tameka's (minus the being pregnant of course). I did like Marcus' Step Up (Indigo Summer #5) Korean roommate, Jae, whom Marcus used to be instructing slang to. In fact, the plot with Marcus and his roommates (Jae, Step Up (Indigo Summer #5) Paul, Chris, and Derrick) used to be even a piece extra attention-grabbing than his dating with Indigo. Anyways, i assumed this was once a good, attention-grabbing tale that is a very good eye-opener to how issues can swap whilst individuals are separated and while teenagers commence college. i might certainly learn extra through this writer and would need to learn extra approximately what occurs with those characters.
