the road among lifestyles and demise is crossed because the youngster Titans needs to confront the deceased participants of the group that experience doubtless back from the dead. As Donna Troy recruits the mightiest participants of the crew to conflict within the countless Crisis, Robin is faced by way of his predecessor, the bygone Boy Wonder, Jason Todd. the rest Titans face the onslaught of Brother Blood and his military of fans which come with the deceased Titans Aquagirl, Omen, Hawk, and Dove. because the situation hits, Superboy groups up with all the reserve contributors of the staff to conflict his evil counterpart from Teen Titans, Vol. 5: Life and Death (Teen Titans III #5) one other dimension. Collects teenager TITANS #29—33, youngster TITANS ANNUAL number one and ROBIN #146—147.

loads of stuff occurs during this book!- Robin-on-Robin: Jason Todd throws a hissy healthy and beats up on Tim Drake within the Titans Tower.- Raven and Gar unfastened child Eternity to shut the Door of lifestyles and demise and take down a number of zombies, that is cooler than it sounds.- Superboy top exhibits up in Smallville the place Kon is sulking approximately being a Luthor clone,-- and there is an all-Titans throw-down,-- and fast locks him within the Phantom Zone, which he then punches to retcon whatever an individual likes,-- and the Flashes all disappear to haul him away,-- and Robin, Speedy, ask yourself Girl, and Beast Boy need to holiday right into a Luthor lab to avoid wasting Kon,-- and beauty Girl's powers holiday down,-- and Lex will get all talky approximately his courting with Kon.- The Titans run to the rescue of Bludhaven, the place Chemo simply dropped, and Superman leaves Robin in charge.- Cassie and Kon head again to Smallville to avoid somebody from calling Cassie "the virgin goddess" again.- Superboy is the single one to respond to Nightwing's rally name to struggle the challenge Thingamajig, so off they go, adorably, whereas Cassie turns into her brother Ares' mortal champion and catches up with Superboy and Nightwing on the situation Thingamajig.- After a massive struggle scene (here's the Psycho-Pirate's end), Superboy major reappears, smacks down ask yourself Girl, and will get fatally (for either one of them) smacked down by way of Kon. So that is form of much for one book! this is often all predicament stuff and Teen Titans, Vol. 5: Life and Death (Teen Titans III #5) i am Teen Titans, Vol. 5: Life and Death (Teen Titans III #5) usually "meh" in regards to the Crisis, so, you know, Teen Titans, Vol. 5: Life and Death (Teen Titans III #5) meh. vital plot, etc. As for the art, were you aware that Todd Nauck did a topic of minor Titans, too? Unfortunately, he turns out to were attempting so not easy to not lead them to appear like younger Justice that they ended up taking a look like not anything a lot at all. just a couple of chins right here and there gave him away. Scott McDaniel did the Robin matters that I beloved during this ebook -- i love the cartoonish style, even though it used to be a piece Teen Titans, Vol. 5: Life and Death (Teen Titans III #5) jarring subsequent to the semi-realistic kind of the remainder of the book. the ultimate conflict was once from the limitless main issue mini itself, and the artwork used to be incredibly, overwhelmingly detailed, which labored rather well for the emotional tone. (I cannot music down who did the art, however it used to be most likely Phil Jimenez.)
