The Caveman's Valentine by George Dawes Green

George Dawes Green

Romulus Ledbetter wasn't continuously homeless. He as soon as used to be a loyal husband, father, and musician with a brilliant future. He now The Caveman's Valentine forages for meals within the trash cans of the city's higher neighborhoods and wages a strenuous one-man struggle opposed to Cornelius Gould Stuyvesant, an evil -- and imaginary -- energy dealer who's accountable for society's ills, in addition to the sinister Y- and Z-rays which are corrupting humankind. Then one wintry night, Rom reveals a corpse on the mouth of his cave that rouses his well-defined experience of ethics and launches him on an obsessive quest for answers. compelled to reconnect with society, Rom leaves his international and trips via a spiraling net of clues and hunches, immediately right into a sinister den of money, temptation, and murder--otherwise referred to as the "civilized" world.

Romulus Ledbetter is among the such a lot ordinary protagonists that i've got met The Caveman's Valentine in a protracted while. and that i chanced on myself not just intrigued by way of his complicated personality yet liking him very much. Rom was an excellent piano scholar on the Julliard tuition of Music. He used to be a ask yourself at the keyboard and his compositions have been extraordinary, in response to his peers, professors and different musicians. whilst his girlfriend, Sheila, obtained pregnant, he married her and give up tuition to get a role that paid sufficient to aid his new family. Then he started to appear strange behavior, which grew more and more worse. He stopped making music, left his loved daughter and wife, and moved right into a cave. That was once years The Caveman's Valentine ago. medical professionals clinically determined him as a "well compensated" paranoid, with, perhaps, a few schizophrenic overtones. he's deemed "well compensated" because, even supposing he lives in a shallow collapse long island City's Inwood Park, he's in a position to look after himself. He grows his personal nutrients through the hotter months and scavenges in the course of the winter. Of course, it is helping that his daughter Lulu, a NYPD cop, retains an eye fixed on him. And, while he's not having "fits," his good judgment is simply superb and his excessive IQ shines through. he's referred to as "The Caveman" via all who understand him or understand of him. Hallucinations, visions of his ex-wife, Sheila, taking a look as younger as she did after they have been first married, preserve showing earlier than his eyes. She scolds him and dispenses recommendation as needed. Lulu visits him, in truth - now not one other figment of his mind's eye - and loves her father, who's nonetheless as style and loving to her as he was once whilst she used to be a bit girl. Rom is confident guy via the identify of Cornelius Gould Stuyvesant controls the realm with Y-rays from the pinnacle of the Chrysler Building. He believes that he was once dropped at Stuyvesant's recognition simply because he's a "free" man! And this curdles Stuyvesant's blood! A "free guy busting via to his personal divinity, right?" "Ghetto child making it at Julliard. creating a identify for himself? younger composer? Hot, jumping? Getting his notes directly from God." He additionally believes that his brain is inhabited by means of moth-like angels. On an extremely chilly evening on February 14, Rom hears the sound of footsteps outdoors his cave. Swaddled in numerous coats and blankets, he leaves his take care of and unearths The Caveman's Valentine a frozen body. He is familiar with that this isn't simply one other homeless guy who iced over to death. the individual that made the sound of footsteps

most likely left the physique at his entrance door, he deduces. The frozen corpse could not have walked there. The useless guy is handsome, and well-dressed, and not using a mark on his body, in accordance with the scientific examiner. His pockets identity finds his name, Andrew Scott Gates, an unemployed model. Rom insists that he observed a guy in a posh white coat riding a complicated white motor vehicle leaving the "crime scene." Rom is decided to discover the murderer, even supposing the police, who forget about his ramblings, be certain that the dying used to be because of unintended hypothermia. But, Romulus stumbled on Gates The Caveman's Valentine and his feel of justice and accountability kicks in. Of course, he's confident that Stuyvesant, or certainly one of his minions, is the killer. Rom is pressured to reconnect with society as a result of his investigation. He leaves the slim The Caveman's Valentine confines of his cave and trips into the broader world, attempting to hold his matches at bay. A homeless ex-lover of Scott's tells him that the homicide was once perpetrated through the well-known avant-garde photographer, David Leppenraub. Leppenraub, based on rumor, is into medicines and sadomasochistic behavior. Apparently, Scott used to be the version Leppenraub utilized The Caveman's Valentine in so much of his strange photographs. Rom hooks up with a former fellow pupil and musician who is aware Leppenraub, and manages to wangle a call for participation to at least one of the photographer's events with the certainty The Caveman's Valentine that he'll play for his supper, so as to speak. Of course, he hasn't touched a piano in years. because The Caveman's Valentine the tale unfolds, the reader is stuck up in a story of deception, violence, secret and a man's fight opposed to his madness. the most attention-grabbing features of the unconventional is viewing the area via Romulus' occasionally deranged, occasionally virtually basic mind. The tremendous good written narrative is quirky and sometimes humorous. And the characters, specially the protagonist's, are The Caveman's Valentine rather well developed. i actually beloved this most unusual novel and hugely suggest it.
