The Crocodile Birds by Ruth Rendell

Ruth Rendell

Few humans lower than the age of seventeen have learn the full of Virgil in Latin and witnessed murders. yet Liza Beck isn't any usual teenager. She has grown up on my own along with her mother, Eve, within the The Crocodile Birds distant gatekeeper's cottage of superb Shrove House. the following Liza has been nourished by way of books and her mother's obsessive love, rigorously protected against the "contamination" of the skin world. No newspapers, no TV, no phone, no car, no school. Liza understands completely good she will by no means depart Shrove House, or her mother, to compliment the good-looking younger drifter who has a tendency the garden. Then someday the police come and take Eve away forever--and now Sean Holford will locate out, little through little, all approximately Liza's prior and her mother's fierce, mysterious declare to Shrove House. And to his starting to be horror, he will know about all of the males who got here there-and by no means left alive.

"Shrove House: the palace, the home of images and secrets, dolls and keys, books and shadows." "The Crocodile Bird" tem uma introdução bastante misteriosa. Eve e Liza são, respectivamente, mãe e filha. Longe da sociedade, vivem isoladas por opção própria, como residentes da Casa de Shrove, uma mansão na qual Eve é governanta, sucessora da sua mãe. Atormentada por um passado distante mas doloroso, Eve está determinada a criar a sua filha longe de qualquer contacto com o mundo real. Ruth Rendell insere-nos num momento an important destas duas vidas, deixando-nos por momentos enfeitiçados pelas palavras, incapazes de parar de ler em busca de respostas que nos elucidem sobre estas duas mulheres, ainda desconhecidas, tão peculiares. Confesso que, por alguns segundos, me senti como uma intrusa, mas num ambiente familiar, sem compreender os acontecimentos que se desenrolavam perante os meus olhos. Contudo, ninguém deu pela minha interrupção e eu fiquei emblem envolvida, estimulada pelo mistério e as suas promessas de futuras revelações. Infelizmente, estes sentimentos foram sol de pouca dura. O livro é, de uma forma muito linear, a história de vida de Lizzie, contada por si mesmo ao primeiro homem por quem se apaixonou. A história é muito unique e as personagens são maravilhosamente estranhas. As suas vidas são imensamente diferentes daquelas da sociedade dita common e os seus valores e ethical bastante desviados da norma. Apesar disso, o enredo desenrola-se a um ritmo excessivamente lento e pausado. Foi para mim difícil focar a atenção e manter o interesse. A história vai-se arrastando e arrastando até que, a certa altura, conseguimos prever as próximas palavras. Esta foi a minha estreia com Ruth Rendell e a percepção com que fiquei desta famosa escritora é que as descrições são a sua praia. Descrições de todas as formas e tamanhos: de pessoas, lugares, objectos, sentimentos, enfim, de tudo. Se o seu objectivo é delinear imagens ordenadas na nossa mente, exactamente como ela as vê, então é bem sucedida. Deixa pouco para a nossa imaginação, porque vai ao mais ínfimo detalhe, dizendo-nos as coordenadas exactas da posição de um simples quadro, por exemplo. Dito isto, o nível de envolvimento na The Crocodile Birds história e nas personagens que a habitam ficam para segundo plano. Relativamente aos diálogos acho que a senhora tem medo deles! Eles destacam-se pela sua ausência. Um mystery psicológico? Difícilmente. Um livro repleto de mistério e suspense? Talvez até à página 50. Um livro The Crocodile Birds excellent para uma noite de insónias?

Certamente!
