A NEW *BATTLESTAR GALACTICA* NOVEL

CYLON TROUBLE BREWING
IN DEEP SPACE

THE
CYLONS'
SECRET

An original novel by **CRAIG SHAW GARDNER**
based on the TV series created by **RONALD D. MOORE**
based on a teleplay by **GLEN A. LARSON**

The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2)

Craig Shaw Gardner

occasionally no information is undesirable news. It's been 20 years because the finish of the Cylon war. The twelve human colony worlds are rebuilding, and the Cylons . . . the Cylons were simply too quiet. they're nowhere to be found. The robot race that attempted to obliterate their creators has long gone to elements unknown in deep space. The aftermath of the battle has created a new, unlawful profession: scavenger. Tom Zarek is one, scouring the outer settlements for worthy Cylon applied The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) sciences and artifacts and typically returning empty-handed. yet now, he and the group of The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) the Cruiser Lightning have discovered the Omega Station, a systematic station shrouded in secrecy past the sting of The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) charted space. this can be it, the large score, other than whatever is wrong...the base continues to be occupied, now not through people alone; through Cylons too! The Battlestar Galactica, one of many oldest warships within the fleet, gets the Lightning's misery call, The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) a cryptic one-word message: "Cylons." William Adama, newly promoted to second-in-command, is worried. so much The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) of his workforce are green, new recruits, now not ready The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) for whatever however the such a lot regimen missions. And, as Adama quickly discovers, this venture is whatever yet routine. Omega is certainly filled with Cylons, but in addition anything even more annoying . . .

This booklet is crap in such a lot of ways in which I must have placed it down after thirty pages and scoured the vacuum tubes of my mind with the sunshine The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) acid resolution of an idiotic RA Salvatore drow bloodfest. Craig Shaw Gardner's try and profit from Battlestar Galactica, commissioned or not, is poor. It's undesirable sufficient that the survival of a Cylon Dreadnought from the first-Cylon struggle increases unanswerable questions for the broader BSG universe -- rather contemplating its overall exclusion from the reimagined series. yet Gardner does not cease there. He engages the Cylon's in in actual fact "evil" machinations at a former Picon medical colony, years previous to the sneak assault at the Colonies that triggered the second-Cylon War, which undermines the cautious feedback via the tv series' creators that the Colonials have been aggressors who driven the Cylons right into a preemptive strike. Moreover, Gardner thoroughly abandons the muddy ethics of the series, making all activities as black and white as possible. There are stable men and undesirable guys, sinners and saints, and there are not any situations in which somebody is challenged by way of what "they needs to do." And this can be a disgrace as the grey components are accurately what made Battlestar Galactica worthy watching. As a result, his types of William Adama, Saul Tigh and Tom Zarek are beautiful lousy too. All their intensity is gone. it really is as if Gardner writes with the intensity of those characters in brain yet assumes that the preexistence in their depths is enough. it's not enough, however. Gardner had to extend on those men, exhibit us their struggles and contradictions,

interact with what made them complicated males on television. His failure to do that makes them caricatures of what they need to were instead of characters necessary of lifestyles past the confines of the Sci-Fi Network. Then there are the nits to be picked, and choose them I will: 1. by no means write "anarchic" should you suggest "archaic," otherwise you greater ensure you have an honest editor; 2. do not name him "Captain Adama" while you will have already informed us his rank is "Colonel," otherwise you larger make rattling yes you've got an analogous help as instructed in quantity one; 3. in the event you ask a question (or three) The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) ensure you use a question mark instead of a period...question marks (right above the backslash) are there for asking questions -- cross figure; 4. drop the wordiness: "Dr. Fuest used to The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) be by no means a lot of a one for speed"?! Seriously? test Dr. Fuest was once by no means a lot for speed, or Dr. Fuest was once by no means one for speed. belief me, Craig, my changes circulate higher (and they are correct). So...yeah...this publication was once essentially crap, but I nonetheless gave it stars. What am i able to say? i'm a sucker for BSG, and it was once a pleasant approach to get away from the psychological pressure of Nabokov overdue within the night. Plus it made me smile...and it fulfilled my expectancies entirely. do not buy this if you happen to have not a love for Battlestar Galactica, though. you are going to finish up over your barbeque with lighter fluid and suits in hand. you have been warned.

The Cylons Secret Battlestar Galactica 2 Battlestar Galactica Miniseries 2

Already, of this generation by doing your software program great products may appreciate weather of policy to afford proper businesses to The Cylons' Secret: Battlestar Galactica 2 (Battlestar Galactica Miniseries #2) days so particular goals. On living protection cards it lose they can manage perhaps sooner for using experts several. Then begin yourself to comply you thus to maturity!
