The first novel of Puzo's remarkable career

The Dark Arena by Mario Puzo

Mario Puzo

the 1st novel through the writer of The Godfather starts on the finish of worldwide battle II, as Walter Mosca returns domestic from battle to an doubtful lifestyles as a civilian. He returns to Germany to discover the lady he as soon as loved, and to construct a existence there, yet succumbs to the corrupting affects of a malevolent time.

The was once a good read, yet it's not that i am relatively certain The Dark Arena why. not anything large attention-grabbing particularly occurs (although there are a few moments). i love Puzo yet it is not as if he writing kind is mesmerizing. this is often The Dark Arena certainly the least attention-grabbing of all his books. there is no type of secretive plotting or manipulation or whatever like what he writes so well. i discovered the entire characters beautiful not easy to narrate to. Yet in some way I loved it, it by no means felt like a drag. I appeared ahead to selecting it up back every time I placed it down, perhaps since it simply appeared transparent it used to be stepping into a sad direction. or even since it jogged my memory a very good volume of A Farewell to Arms. That comparability is a stretch for the reason that AFtA is among the maximum books ever, however it had many of the related parts to the plot. i discovered Walter Mosca to be The Dark Arena just like a lot of Hemingway's characters in that it truly is challenging to get a feeling for what feelings they're particularly experiencing, you're compelled to exploit their activities and their techniques to figure out the emotion of the character. I additionally locate Camus's characters to be like that. Or possibly it was once simply because I learn this ebook in the course of per week the place i'm operating from 8PM to 5AM and every little thing is simply a bit off. It definitely turns out that method as I write this at 4:15 AM and am evaluating a chief personality who's a dick and my least favourite of Puzo's books to characters/books from one in all my absolute favourite authors.
