Michael Curtis The Fall of Rome: A Novel of a World Lost Ford

476 a.d.: The Roman Empire, riddled with corruption and staggered through centuries of barbarian onslaughts, now faces its maximum challenge---not basically to its wealth and prestige, yet to its very existence. In his riveting novel *The Sword of Attila*, Michael Curtis Ford extremely joyful readers along with his recounting of a cataclysmic conflict of old civilizations. Now, within the *Fall of Rome*, he's taking at the bloody twilight of empire, because the legacy of Attila---once inspiration destroyed at the battlefield---emerges back to defy the facility of the Western World. In this strong saga of Roman warfare, the sons of Attila's nice officials salary conflict with each other because the dramatic war of words among Rome's final emperor and Rome's barbarian conqueror ends up in the exciting dénouement that turns into the autumn of a potent empire. Pulsing with intrigue, saturated with historic detail, the autumn of Rome brings readers to new places---pressed into the trenches as catapult bolts fly overhead, lurking in the palace the place betrayal is plotted, imprisoned in a tower stronghold the place an emperor turns mad. Once again, Ford demonstrates his mastery as a chronicler of battle, honor, and historic worlds during this masterfully plotted epic novel that would go away readers begging for more. Praise for the Novels of Michael Curtis Ford *The Sword of Attila* "Supremely good achieved . . . again, Ford bargains solidly researched and lustily violent army old fiction."---Kirkus Reviews *The final King* "Michael Curtis Ford's love for the traditional international emanates from each page: in his magical settings and superb new edition of monuments and landscapes, in his daring graphics of the protagonists, and in his interesting and quickly relocating plot."---Valerio Massimo Manfredi, writer of the *Alexander Trilogy* and *Spartan* "This is Ford's top so far, and simply those that have learn his first be aware of simply how sturdy that makes this book."---The Statesman Journal *Gods and Legions* "Powerful and passionate. a very compelling story---one not only of gods and legions yet of men."---Library magazine (starred review) "Thanks to the author's very good study of either his topic and era, the reader reports this nice man's transformation step through decided step. hugely recommended."---The ancient Novels Review *The Ten Thousand* "A *The Fall of Rome: A Novel of a World Lost* precious successor to Steven Pressfield's *Gates of Fire*."---Library magazine (starred review) "Michael Curtis Ford's relocating account of the struggling with and loss of life of those heroic Greek mercenaries isn't just traditionally sound, yet *The Fall of Rome: A Novel of a World Lost* very human, in making Xenophon's story come alive in a manner that no historical historian or classicist has but accomplished."---Professor Victor Davis Hanson, writer of *The Soul of conflict*

2.5Cómo me costó terminar este *The Fall of Rome: A Novel of a World Lost* libro. Aunque los angeles sinopsis lo diga, a mí no me pareció ni tan espectacular ni tan vivaz. Me siento hasta un poco estafada. He leído muchos libros con contexto histórico y muchas donde hay batallas, y a éste no lo sentí bien logrado. No logré mantenerme interesada, a pesar de que el argumento y el título prometían mucho. Empieza interesante con l. a. muerte de Attila, pero luego va perdiendo fuerza y dinamismo y sólo se recupera un poco sobre el final, cuando ya es tarde. El libro está dividido en tres partes y los angeles primera se lee muy rápidamente y es atrapante. Las otras dos partes no. Si bien sobre el ultimate de l. a. tercera mejora un poco, no es suficiente para repuntar el aburrimiento que me generó en el medio durante páginas y

---

páginas. Como curiosidad, los párrafos son muy largos. Hay una cantidad enorme de comas, lo que produce frases de cerca de diez renglones de largo que parece que nunca van a terminar. Mi primer problema fue identificar los nombres. Odoacro, Onulf y Orestes se me mezclaron continuamente y me costó muchas páginas finalmente identificar a cada uno y a qué bando pertenecían. Sé que fueron personas reales y ésta es una ficción basada en una investigación hecha por el autor, pero aún así creo que no manejó l. a. aparición de los personajes todo lo bien que hubiera hecho falta para guiar a quienes no conocemos más que lo básico de l. a. historia del imperio romano. Mi segundo problema fue imaginar a los personajes. Pocas veces hay descripciones, y para colmo los protagonistas son el resultado de los angeles mezcla de varias razas -cosa que nos enteramos bastante avanzado el libro- así que las características físicas que uno puede pensar que tenían, de repente son completamente diferentes. Además, cosa extraña, los protagonistas no se sienten realmente como protagonistas. Se los ve bastante poco y uno no llega a sentir algo por ellos *The Fall of Rome: A Novel of a World Lost* más que indiferencia. Es como ver un juego de estrategia desde afuera. En vez de profundizar en hechos importantes se extiende durante páginas y páginas con algunas batallas esporádicas que narra con lujo de detalles. Los diálogos son breves, escasos y muchas veces con poca importancia. Son lo mejor del libro por lejos, éstas partes se leen muy rápido, el resto no. Cada vez que se pone interesante nos avisa que pasaron unos cinco años. Saltea lustros como si fueran horas y luego los resume de forma rápida, bastante aburrida y por momentos hasta confusa. Por esto muchas veces nos encontramos cambios que se mencionan al pasar como si ya los hubiéramos visto ocurrir, pero no. Varias veces me sentí tentada de saltar algunas partes (lo que para mi roza el pecado) ya que por momentos parece un ensayo muy poco dinámico o un libro de historia camuflado como novela. Ni *The Fall of Rome: A Novel of a World Lost* siquiera hay un mínimo de misterio porque ya sabemos que Roma va a caer, y el proceso de ver como ocurre debería ser mucho más interesante y ameno de lo que es. Pensé que iba a ver l. a. caída del imperio en una narración llega de intriga, estrategia y traición, pero se vio como un conjunto de batallas demasiado detalladas y alguna que otra traición, principalmente desde fuera del imperio. Reseña de Fantasía Mágica

## **The Fall Of Rome A Novel Of A World Lost**
