Mikhail Kalashnikov

The Russian notice that's most often spoken during the international isn't really Lenin, gulag or perestroika, it truly is 'Kalashnikov'. the cause of this is often simple: there are eighty million Kalashnikovs in move on 5 continents. as soon as invented, the AK-47 attack rifle turned the main standard weapon within The Gun That Changed the World the world: from Vietnam to Palestine, from Cuba to Iraq, it used to be on the center of conflicts and struggles everywhere. it's the basically firearm that has ever been depicted on a countrywide flag - that of Mozambique, the place it symbolizes liberation. Mikhail Kalashnikov himself, who used to be born in 1919, right here tells his The Gun That Changed the World lifestyles story, with assistance from Elena Joly, for the 1st time: his deportation to Siberia together with his relatives whereas nonetheless a child; his time as a soldier in a tank regiment; his invention of the world's most famed weapon and his turbulent existence less than Stalin, Khrushchev, Brezhnev, Gorbachev and Yeltsin. this can be a awesome portrait of a guy of ingenuity and energy within the context of the customarily scary and extraordinarily unforgiving Russia of the 20 th century.

Elena Joly went to Russia to interview Mikhail Kalashnikov who invented AK-47. This attack rifle is light, tough, easy-to-use, maintenance-friendly and useful in muddy, wet, sandy or different undesirable conditions. His tale is especially interesting, and indicates his enthusiastic personality and complex backgrounds --- being born of a farming kin taken its estate and despatched to Siberia, escaping from the penal settlement, turning into a profitable weapons' clothier and Soviet's hero whereas hiding his past. He later in existence met his counter elements like Uziel Gal who invented UZI, and Eugene Stoner inventor of M16, paying appreciate to them. I selected to learn this booklet after completing "Johnny Mad Dog" that revolves round the Congolese armed forces boys looting town and the lady and her kinfolk fleeing for safety. i wished Mr Kalashnikov to assert whatever on battles world wide the place his innovations are used, however it appears like he avoids wondering that.
