The Hidden Book in the Bible by Richard Elliott Friedman

Richard Elliott Friedman

popular biblical sleuth and student Richard Elliot Friedman unearths the 1st paintings of prose literature within the world—a 3000-year-old epic hidden in the books of the Hebrew Bible. Written through a single, masterful writer yet obscured by way of old editors and misplaced for millennia, this outstanding epic of love, deception, war, and redemption is a The Hidden Book in the Bible compelling account of humankind's complicated dating with God. Friedman boldly restores this prose masterpiece—the very center of the Bible—to The Hidden Book in the Bible the extreme shape during which it used to be initially written.

With appreciation from Dr. Friedman's scholastic honesty and sincerity, i'm having fun with studying approximately an method of bible study that are meant to in a different way enrage me as a believer. As I read, thought, my curiosity within the Bible as God's notice is reinforced now not challenged. My religion has The Hidden Book in the Bible a tighter grab of its desire within the message The Hidden Book in the Bible of Scripture and that i proceed to work out it as greater than reliable literature or only the 1st The Hidden Book in the Bible historical past or prose. Any speak of viewing the Bible tales or discrediting its miracles as fantasy or the wonderful tale telling of semitic oral culture isn't the burden of this work. this isn't an apology. Dr. Friedman advances his curiosity in rearranging the puzzle items as proposed by—a now debunk documentary speculation of— Julius Wellhausen. Friedman identifies a ebook in the Bible because the made from a unmarried writer which by no means discredits its concept or our religion that this paintings is the made from divine windfall in getting it to us. The Hidden e-book within the Bible contains 236 entries [Jehovistic] from nine books from Genesis 2:4b to I Kings 2:46. The paintings of five basic assets for the Torah remains to be maintained as likely: J, E, D, P and R—a redactor who positioned all of it together, most likely Esau. however the items to the Biblical puzzle have been installed position via scribes, prophets and priest—see Friedman's work, *Who Wrote the Bible* —and those are the folks who must have performed it as Divine agents. The traditions themselves, I nonetheless believe, nonetheless originate with Moses. A fascinating read.
