The Contradictory Countess Morag Fleming, the The Highland Countess (Cotillion Regency Romance, #10) (Regency Royal #7) Countess of Murr, have been bride to the main lecherous lord in Scotland but this ravishingly wonderful woman had by no means been touched. useless to say, she had by no means borne a toddler but as a tender widow, The Highland Countess (Cotillion Regency Romance, #10) (Regency Royal #7) she got here to London with a very good son in tow. Her history had left her blind to the follies and fopperies of style but quickly all of society was once at her feet. Most wonderful of all, she knew so little in regards to the methods and wiles of affection but set her center upon none except the devastatingly handsome, charming, and prosperous Lord Toby Freemantle, who can have any girl he chose, and obviously selected to not have her....

Morag is simply seventeen and a beauty. She is married to the aged Earl of Murr however the marriage hasn't ever been consummated. She falls in love with a customer to the citadel during which she lives – Lord Toby Freemantle yet even supposing the sensation is mutual there's a false impression they usually part. Seven years later they meet back in London while Toby is set to develop into engaged to another individual and Morag is a widow. Is it attainable that the 2 big name crossed fanatics can tackle their ameliorations and locate happiness or will everybody round them reach placing a number of spanners within the The Highland Countess (Cotillion Regency Romance, #10) (Regency Royal #7) works? this can be an pleasing brief learn and it stored me amused for a couple of hours. Morag herself is a sympathetic personality yet i presumed the small boy, Rory, particularly stole the show. he's a very nasty, spoilt brat initially yet he steadily changes. The interactions among the entire characters and Rory are very well performed as is Morag's fraught courting with Toby. there's extra intensity to this e-book than it may look and it does offer a specific amount of meals for considered human relationships in general.
