while a stranger from the earlier arrives in the midst of the evening with surprising news, Jack, Annie, and Davey are catapulted The Hundred-Towered City into the wildest event they have ever had. Their mom and dad The Hundred-Towered City were arrested on suspicion of being spies. not just in a unique state yet in a distinct time—Prague, 1903. the kids commute again in time and locate themselves head to head with danger, mystery, and the magic of a wierd place. the place are their mom and dad and who has stolen the main to the time machine? Will our younger heroes be in time to avoid wasting their mom and dad from siniser Karlstein The Hundred-Towered City Castle? or even in the event that they do, how will they go back to the The Hundred-Towered City current day with out the key? Alchemists, legendary creatures, and a guy with a hook for a hand carry the solutions they're taking a look The Hundred-Towered City for.

Satu hal yang membuat saya agak heran soal buku ini adalah, kenapa harus dibuat dalam layout hard-cover? Jadinya kan harganya mahal :(Anyway, sampulnya cukup menarik, memberikan kesan misterius gitu.Jack, Annie dan Davey adalah tiga bersaudara, dan ayah mereka seorang penemu. Ayah mereka berhasil merangkai sebuah mesin waktu berbentuk sepeda motor. Suatu malam, ketiga bersaudara tersebut mendapat kunjungan mengejutkan dari seseorang yang membawa kabar bahwa ibu dan ayah mereka terjebak di kota Praha, pada tahun 1903 pula. Mereka bertiga pun menggunakan mesin waktu tersebut untuk mencari dan menyelamatkan orang tua mereka. Akan tetapi perjuangan mereka tidak mudah. Di Praha, mereka terpisah, dan harus menjalani kehidupan yang tidak pernah mereka bayangkan sebelumnya, Jack terpaksa harus bergabung dengan tentara, Annie menjadi pendamping seorang wanita bangsawan, dan Davey ikut dalam suatu teater boneka.Saya memang penyuka style fantasi semacam ini. Tapi The Hundred-Towered City karena saya suka style ini, jadi saya malah The Hundred-Towered City agak choosy untuk mengatakan bagus atau tidak. This booklet is okay, yet now not awesome. each now and then, ada bagian-bagian yang cukup menarik, terutama ketika para tokoh utama bertemu dengan tokoh-tokoh khayali. Ada golem (yang langsung mengingatkan saya pada Bartimaeus Trilogy #2), ada jin air di sungai, ada penjaga lorong waktu. Tapi tidak ada penjelasan yang cukup memuaskan kenapa mereka bisa ikut terlibat dalam cerita. Lalu saya suka agak bingung, sebenarnya mereka terjebak di Praha itu berapa lama sih? Cerita lebih banyak terpusat pada Jack dan Annie. Bagian yang memuat POV dari Riger, ayah mereka, dan Davey akhirnya terkesan seperti sempilan saja.Somewhat, buku ini sepertinya ingin membawa pesan that we should always be thankful that we are living during this age rather than in 1903... Bagian pada saat Jack berhasil memenangkan pertandingan antar tentara itu, jujur saja, sedikit terasa seperti nasihat. Well, as soon as again, Okay, yet now not awesome.
