Edward Marston

Jonas Applegarth is a superb yet belligerent playwright. While his play, *The Misfortunes of Marriage*, is played by way of *Lord Westfield's Men*, it factors an uproar. All of Applegarth's enemies assault the company. Nicholas Bracewell defends the playwright loyally, yet alas, Applegarth is quickly came across hanged via the neck. It's only the 1st of many mysteries that Nicholas has to solve. Lord Westfield's males are livid once they are satirized by means of a rival kid's theater corporation on the Blackfriars playhouse. A moment assault through the killer-laughing hangman-throws the actors in extra disarray. Nicholas is lower than huge, immense pressure, no longer least simply because he's attempting to re-ignite his romance with Anne Hendrik by way of supporting her to fend off an competitive *The Laughing Hangman* (Nicholas Bracewell #8) suitor. His liked corporation is below danger as by no means before, and he has to name on all of his assets to rescue them. "Marston's wit and brilliant evocation of Elizabethan London's points of interest and scents offer a delightfully ribald backdrop for this smart series." -Publishers Weekly "A delightfully wonderful interval piece suffused with humor, wit and atmospheric drama." -Booklist Edward Marston, below his genuine name, Keith Miles, was once raised in Wales and went directly to learn smooth background at Oxford. this is often one other pleasant and fairly darkish instalment within the Nicholas Bracewell sequence by way of Edward Marston that sees the intrepid bookkeeper of *Lord Westfield's Men*, Bracewell, attempting to music down the assassin of the a lot despised yet highly proficient playwright, Jonas Applegarth. There doesn't appear to be someone that larger-than-life Applegarth hasn't indignant or upset, in either phrases and deeds, so by way of suspects, the record is long. whereas there are a few content material the fellow is dead, whether his homicide (hung by means of the neck, whereas the killer laughs manically within the distance) is gruesome, that every one changes. while a moment homicide takes place, this time of a steady soul, and back in a theatre, the actors are so much distressed and Nick in particular determines to trace down who it really is *The Laughing Hangman* (Nicholas Bracewell #8) that has not just actors, yet a person desirous about theatre of their depraved sights. as soon as again, Marston brings Elizabethan London, in all its gory glory to life. Replete with wonderful, full-bodied language and characters – either in the performing troupe and the secondary characters brought with each one new novel - who make you laugh, wince at their vanity, and cheer their bravery and foolhardiness, this sequence simply will get larger and better. no matter if it's Lawrence Firethorn and his virago-wife Margery, or lovelorn Edmund Hoode or the selfish and narcissistic Barnaby Gill, all of whom are someway controlled by way of level-headed Nicholas, the characters are consistent, frequently hilarious and the plots they turn into embroiled in tight, even if, just like the level upon which they strut, you want to droop your disbelief. Furthermore, the background is exact and fascinating with no being didactic. For fans of ancient fiction, crime and simply rollicking *The Laughing Hangman* (Nicholas Bracewell #8) reliable reads.
