## The Lazarus Vendetta (Covert-One #5)

Patrick Larkin

For the earlier 3 many years Robert Ludlum's bestselling novels were loved via enormous quantities of thousands of readers around the globe and feature set the traditional opposed to which all different thrillers are measured. His Covert-One sequence has been between his so much loved creations and now comes the newest exciting novel within the series. The Lazarus The Lazarus Vendetta (Covert-One #5) Movement, the dominant strength within The Lazarus Vendetta (Covert-One #5) the eco-conscious, "anti-technology" protest movement, has despatched rumblings down the halls of the world's intelligence agencies. Led by means of a mysterious, never-seen determine recognized simply as Lazarus, this more and more favourite team is thought via a few to be getting ready a daring strike. whilst an assault on a nano-technology examine facility leaves millions dead--- protestors and scientists alike---from what seems to be a cloud of inadvertently published yet gruesomely lethal nanobots, pandemonium reigns. Lt. Col. Jon Smith is activated via Covert-One to discover and discover the reality approximately The Lazarus Vendetta (Covert-One #5) Lazarus the place all others have failed. As Smith slowly uncovers the lethal underpinnings The Lazarus Vendetta (Covert-One #5) of the group, he quickly learns that the Lazarus circulation is just the very tip of the iceberg in a perilous scheme that threatens billions of lives and may perpetually switch the character of the area itself.

Desenganem-se rapidamente de duas coisas: o facto deste livro ser o quinto de uma série é completamente irrelevante, e o autor no verdadeiro sentido da palavra é Patrick Larkin. Passo a explicar: a sequência e continuação dentro da série é um aspecto secundário, The Lazarus Vendetta (Covert-One #5) há apenas pequenos pormenores em que se nota que o autor faz The Lazarus Vendetta (Covert-One #5) referências a livros passados, mas nada de especial. As personagens são bem caracterizadas, os acontecimentos bem explicados, e nada se perde. Agora o autor. Como se vê na capa, aparece ROBERT LUDLUM em letras garrafais, seguido de um "Robert Ludlum e Patrick Larkin". eu pensei que o autor period o Ludlum e que o Larkin tinha dado uma ajuda. Mas não. Ludlum morreu antes do primeiro livro da série ser sequer escrito! Ele criou a série, deixou uma série de notas e guias, e um grupo de escritores, como Patrick Larkin, é que escreveram de facto os livros. Embora The Lazarus Vendetta (Covert-One #5) esta abordagem me faça alguma confusão, não condeno, é a faceta empresarial da escrita: cria-se um produto, arranja-se alguém que execute, fazem-se rios de dinheiro. Se o livro ficar bem feito, não me queixo (muito). O que me chateia é a forma como enganam o leitor: em lado nenhum se deixa bem claro que quem escreveu o livro foi Patrick Larkin e não Robert Ludlum. Só o soube depois de uma pequena pesquisa. Mas tirando estes dois pormenores, tenho a dizer que gostei do livro, embora não o tenha achado nada de especial. É um mystery político e ambientalista, em que os ambientalistas que condenam os avanços tecnológicos, especialmente as nanocoisas, são os verdadeiros vilões. Nada de muito novo. O que o autor consegue fazer é escrever um relato cativante sobre um Jon The Lazarus Vendetta (Covert-One #5) Smith, membro da Covert-One, uma organização tão secreta que nem as organizações secretas americanas sabem que ela existe, e a sua busca por respostas. O protagonista está bem construído, e explora bem a dicotomia entre Jon Smith, o

cientista especialista em microbiologia, e Jon Smith, o agente secreto (vulgo espião) topo de gama. O resto das personagens também é bastante interessante, mas apenas uma consegue roubar algum do protagonismo de Jon, Peter Howell, agente reformado do MI6, com a sua forma de falar exageradamente britânica e um carisma muito peculiar. As intrigas andam sempre ao rubro, mas o mistério não é grande mistério: antes de metade do livro já eu tinha topado o que se andava a passar. Destaque no entanto para as personagens dos Horatii, um trio de assassinos gigantesco geneticamente melhorados com uma presença imponente em cada página em que aparecem. A pior parte foi mesmo o fim, não exactamente *The Lazarus Vendetta* (Covert-One #5) pouco satisfatório, mas apressado. Todos conspiram, todos jogam a dobrar, o ritmo é tão acelerado que four hundred páginas contam *The Lazarus Vendetta* (Covert-One #5) a história de mais ou menos 6 dias, e depois no fim tudo acaba demasiado facilmente. Gostava de ter visto mais complicações e um ultimate mais elaborado, mas não ficou mau de todo. <http://livrosimples.blogspot.pt/2014/...>
