I gained this ebook in a Goodreads giveaway. i used to be so excited to get it, and The Lost Secret of the Green Man (The Crystal Keeper Chronicles #2) so dissatisfied to learn it. While the tale could have been interesting, the language was once so The Lost Secret of the Green Man (The Crystal Keeper Chronicles #2) bad that i did not finish. I needed to strength myself to learn earlier the 1st few chapters. there's a element the place the prose interferes with the story, and this publication reached that time within the first The Lost Secret of the Green Man (The Crystal Keeper Chronicles #2) few pages. I could not end it. and that i definitely would not go it directly to any younger reader. Middle-grade readers are, greater than the other reader, nonetheless formulating their language skills. publicity to prose this bad isn't of their most sensible interests. The writer does herself a disservice by means of now not hiring a reliable editor to head during the paintings and connect not just the language problems, however the tale as well. Two-dimensional characters, no actual conflict, flawed note utilization - all this might were corrected, and it may well than have made an honest book.
