Jabez Clegg, the Manchester man, floats into this historic novel in 1799, carried downstream by means of the River Irk in flood. Jabez's upward thrust to advertisement luck mirrors the increase of town on the center of the economic revolution. Mrs George Linnaeus Banks (nee Isabella Varley) weaves an online of ancient truth and fiction in a fast paced tale equipped round the competition among the Jabez and his nemesis Laurence Aspinall, and the destiny of Augusta Ashton, who's enjoyed by way of either yet loves merely one. An enjoyable fictional trip throughout the early nineteenth century historical past of the town of Manchester, the e-book additionally has critical issues to make approximately women's offerings and household violence. (Summary through Phil Benson)

This novel is a story of 2 males born in 1799, one an orphan raised via a bad operating relations and the opposite a toddler of wealth. The orphan was once saved, plucked from a flood's raging waters, and he has upon a distinct fate, affirmed at his christening, whilst the irascible, self-made parson Joshua Brookes imposes on him the identify Jabez—a The Manchester Man Biblical reference that recapitulates his birth, units his position among peers, and provides a way forward for success, if he yet is still actual and good. This novel is an English Horatio Alger story, serving either to entertain and instruct. As such, it's not excessive art, however it is eminently readable. The boy Jabez Clegg does stay real and good, and different cases whilst he indicates his rectitude manage to pay for him favors from benefactors that let him to extra ascend, accomplishment after accomplishment, rung after rung. He earns himself the opportunity to wait school—a infrequent feat for somebody of his category at this time, as most youngsters have been anticipated to work, while early as six—wins extra plaudits, is apprenticed and exhibits flair and industry, and is given extra possibilities to upward thrust in society. It's a rag-to-riches lifestyles for Jabez Clegg, he's in simple terms thwarted in achieving one thing, his real love Augusta Ashton, daughter to the wealthy service provider who apprentices then ultimately makes a companion of Jabez in his business. It is over Augusta that the orphan and the wealthy boy Laurence Aspinall clash, notwithstanding Jabez is still honorable and The Manchester Man humble in his dealings with the gentleman, out of either his instinctual goodness and social decorum, which dictates one's right habit with appreciate to social status. all through Jabez's life, at approximately each milestone in his development, there are encounters with Aspinall, many within which Jabez is injured, and one—to Aspinall's shame—where he owes Jabez his life. whilst a tender man, the rakish Aspinall served within the Manchester Yeomanry, a martial cavalry that served Manchester in lieu of a police force. In 1819, whilst the antagonisms among staff and masters got here to a head within the bloodshed of Peterloo, this similar yeomanry used to be behind a lot of that carnage and mayhem, with some of the officials driving drunken and roughshod over staff and blameless electorate alike. Jabez is critically gashed by means of Aspinall's wild sword whilst saving the lifetime of Mr. Chadwick, a wealthy service provider and brother-in-law to Jabez's mentor Mr. Ashton. Despite this and different destructive signs, Augusta is however smitten with the speeding kind of Aspinall, and over the process a number of years—including an episode of arrested elopement—she is ready to win from her mom and dad permission to marry Aspinall. and

through this period, Jabez is still silent approximately his love for Augusta, having now not but attained a adequate station to advantage critical attention as a suitor. in the course of the decade whilst Augusta and Aspinall are married, Jabez maintains to ascend, moving into a enterprise relation with Chadwick and Ashton, marrying Chadwick's daughter who adores him, and changing into a father two times over. As Augusta and Aspinall's marriage spirals badly downward to its nadir, Jabez loses his spouse and youngsters in a freak accident. almost immediately after, Aspinall kills himself to prevent shame and The Manchester Man additional degradation while his collectors swarm him. the best way is paved for Jabez to satisfy his destiny, and inside of six months—with abiding patience, decorum, and religion in providence—Jabez and Augusta are united. This novel is Dickensian within the breadth of characters involved, and there are numerous subplots, yet they serve merely to light up the principals' virtues and vices, delivering events for Jabez to polish and Aspinall to teach himself tainted, an idle, reckless, ne'er do well. The breadth additionally serves to counterpoint the history of the tale and make burgeoning Manchester a true presence and never simply a backdrop. Characterization is simply enough to delineate, yet no longer adequate to distract readers from the novel's purpose, that is didactic and morally elevating—to convey not just Jabez' dynamic ascent, but additionally how that ascent was once a mixture of ethical virtues: unflagging faith, industry, and pluck.
