The Methodology of Herbert Blumer by Kenneth Baugh Jr.

Kenneth Baugh Jr.

The method of Herbert Blumer is an entire severe account of the contributions of this crucial American sociologist to the technique of social research. In an in depth analyzing of Blumer's texts, the writer charts the improvement of Blumer's thinking, revealing a pressure among a basically realist ontology and Blumer's emphasis at the courting of idea to methodology. the writer describes Blumer's belief of technique as a self-reflective workout during which the foundations of clinical inquiry are built and criticized, and never in simple terms as an issue of technique. Blumer's focus at the indispensable cohesion of conception and process relates suggestively to present puzzling over methodology, whereas his examinations of this subject matter in such parts as public opinion learn and variable research offer provocative criticisms of many present study practices.
