I downloaded this ebook since it was once loose (public domain) and it gave me anything to learn whilst my Kindle used to be handy. It became a true page-turner towards the end, as this The North Pole: Its Discovery in 1909 Under the Auspices of the Peary Arctic Club was once a beautiful success for its time. The ebook is barely marred via Peary's benevolent yet racist angle towards the Eskimos that made up greater than half his expedition.
