

The Romans of Lancelot of the Laik by Walter W. Skeat

Walter W. Skeat

A SCOTTISH METRICAL ROMANCE, approximately 1400--1600 AD. The Romans of Lancelot of the Laik RE-EDITED FROM A MANUSCRIPT within the CAMBRIDGE collage LIBRARY, WITH AN INTRODUCTION, NOTES, AND GLOSSARIAL INDEX, - 1865. - PREFACE, - A FORMER variation of the current poem was once revealed for the Maitland Club, in 1839, and edited by means of Joseph Stevenson, Esq. It has stored me all hassle of transcription, yet via no means, The Romans of Lancelot of the Laik i'm sorry to say, that of correction. those that own the older version will with no trouble understand that it differs from the current one very often indeed, and that the differences are frequently similar to significantly to impact the sense. the various blunders in it akin to ca.szcabtyee for casuabytse, grone, for gone, repret for repent are basically typographical, yet there are others The Romans of Lancelot of the Laik which mold incline me to think that the tran- scription was once too swiftly carried out numerous passages being particularly meaningless. close to the realization of 3lr Stevensons preface we learn The items which were chosen for the current volume¹ are revealed with such blunders of transcrip- tion as have crept into them via the carelessness of the scribe an announcement which definitely means that there has been no purpose on his a part of departing from the original. but The Romans of Lancelot of the Laik that he some- instances unconsciously did so that you can such an volume as significantly to change or break the sense, the reader might conveniently pass judgement on from a number of examples - I the amount includes different poems along with cc Sir Lancelot. LINE. version OF 1839. real examining OF THE MS. fatil fatal, unarmyt zinarmed, can here, rendit rent, refuse refusal , felith feeletlz, vyt7 speiris, cumjmg coming, he war, promyfl, ane desyne, born, havin, Hymene , such, a1 so y-vroght, chichingis , love, fatit fated. enarmyt totally armed. cam nere. vondit woulzded. reprefe defeat. fetith setteth. rycht. spuris. cunyng skill. be struggle beware. punyi3 punish. medysyne. lorn lost. harm. hyme him. furth .forth. a1 foly vroght. thithingis tidings. lore teac7zing. Etc. numerous omissions additionally occur, as, e. g., of the observe off in 1. 7, of the note tressore in 1. 1715, and of 4 entire traces at a time in cases viz., strains 1191-4, and 2877-80. will probably be found, in fact, that the previous textual content can seldom be effectively quoted for the needs of philology and that i can't yet imagine Mr Stevensons declare of being exact to be in particular unlucky and the extra so, as the actual textual content is way less complicated and extra intelligible than the only which he has given. the unique MS. is to be present in the Cambridge Uni- versity Library, rnsrked Ek. 1. 5. It previously shaped a part of a thick volume, labelled Tracts yet those at the moment are being separated, for higher convenience, into numerous volumes. The MS. of Lancelot has little to do with any of the remainder as regards its subject., yet a number of different items are within the similar hand-writing The Romans of Lancelot of the Laik and, on the finish of 1 of them, an PREFACE. vii summary of Solomons proverbs, ensue the words, Expliciunt Dicta Salamonis, according to manum V. de F. This hand-writing, notwithstanding close, is particularly regular, and my very own impact definitely is that the scribe has commonly succeeded in protecting the experience of the The Romans of Lancelot of the Laik poem, even though there's a lot confusion within the dialectal forms, as should be shewn presently. the current textual content is as shut a fac-simile of the MS. as may be represented through published letters, each peculiarity being preserved as fa,r as practicable, even together
