THE SHADOW CLUB

*THE GREATEST MYSTERY IN THE UNIVERSE
AND THE THINKERS WHO UNLOCKED ITS SECRETS*

The Shadow Club by Roberto Casati

Roberto Casati

what is stranger than a shadow? The Shadow Club Shadows are messengers from the realm of darkness, photographs that we won't shake off, black spots that experience our sleep in the course of the ages. And but shadows were the main to unlocking a few of our hardest clinical problems: the cause of eclipses, the distances among planets, the form and measurement of the earth, the constitution of the sun system, the character of time itself. during this special research - combining history, science, and anthropology - Roberto Casati discusses the recognized and the vague who, armed with mind's eye and creativity, struggled with the idea that of shadow and supplied us with motives of and makes use of for our consistent companion. between those that have been a part of this "shadow club" have been Pratosthenes and Galileo, historic Arab astronomers and sleek mathematicians, classical Greek painters and Leonardo da Vinci. And now, the identify Casati - who has given us the 1st booklet dedicated to the topic - will be added.
