The Speed of Light: Dialogues on Lighting Design and Technological Change

Linda Essig

during the last twenty-five years, lights layout has gone through a chain of radical changes. With the appearance of automatic lighting fixtures control, automatic lights, and a regular regulate protocol, lights designers have obtained a suite of significantly robust instruments that permit results by no means formerly possible. Linda Essig has interviewed twenty luminaries of lighting fixtures layout and engineering approximately those adjustments and the way they've got affected the art, science, and company of latest theatre. between these interviewed are: Ken Billington (Chicago, at the 20th Century) Natasha Katz (Beauty and the Beast, Aida) Neil Peter Jampolis The Speed of Light: Dialogues on Lighting Design and Technological Change (Sherlock Holmes) Dennis Parichy (Best Little Whorehouse in Texas) Jane Reisman (Black and Blue). While discussing technical issues, those pros allow us to in at the genuine nuts and bolts in their work: the issues of working a complete creation from the back-up system, the politics at the back of the construction of standards, the level to which "gizmoization" does or doesn't infringe on lighting fixtures as an paintings form. An very good source for teachers, students, and professionals, "The velocity of Light" analyzes precisely how lights layout has gotten to its current country - a desirable tale within the phrases of practitioners who be aware of the sector best.
