# The Spirit of Islamic Law by Bernard G. Weiss

Bernard G. Weiss

This examine makes a speciality of a Muslim felony technology recognized in Arabic as *usul al-fiqh*. while the kindred technological know-how of *fiqh* is anxious with the articulation of exact ideas of law, this technological know-how elaborates the theoretical and methodological foundations of the law. The Spirit of Islamic legislations outlines the admired beneficial properties of Muslim juristic thought: espousal of divine sovereignty; a fixation on divine texts; an uncompromisingly intentionalist method of the translation of these texts; a frank acknowledgment of the fallibility of human pastime to trap divine intent; a toleration of felony diversity; a moralistic bent grounded in a specific social vision; and finally, a preoccupation with the affairs of personal individuals--especially relations family members and contracts--coupled with a priority to outline the boundaries of governmental power. The Spirit of Islamic legislations is the 5th booklet in Georgia's Spirit of legislation series, which illuminates the character of felony platforms in the course of the world.

this can be rather well researched book. It offers a good account for the foundation and evolutions of Islamic jurisprudence. i used to be satisfied to work out balanced view written via an orientalist. I learn so much of its chapters, yet its worthy studying the full publication specifically for non Arabic speakers.
