Friedrich Glauser

compliment for Friedrich Glauser's different Sergeant Studer novels: "Fever is a deviously plotted procedural. no longer many can outdo Friedrich Glauser."—The long island Times "This gem includes echoes of Dürrenmatt, Fritz Lang's movie M and Thomas Mann's The Magic Mountain. either a compelling secret and an illuminating finely wrought mainstream novel, Matto's Realm will make it transparent to American readers why the German language prize for detective fiction is called after Glauser."—Publishers Weekly "Thumbprint is an outstanding instance of the craft of detective writing in a interval which lovers will regard because the golden age of crime fiction."—The Sunday Telegraph This is the fifth, and last, novel within the much-acclaimed Sergeant Studer series. Why needs to the festive dinner within the Hirschen resort be interrupted? A homicide places an finish to the marriage social gathering of Studer's daughter. a guy is located with a sharpened bicycle spoke embedded in his back, and a suspect is readily arrested—a bit too quickly, thinks Studer. estate speculation, usury, and betrayed love locate their means into this tightly written secret novel that calls on Studer's intuitive, frequently absurd, but effective police methods. The Spoke, a eu crime classic, used to be first released in 1937. it's been translated into six languages. this is often its first booklet in English. Friedrich Glauser is a mythical determine in ecu crime writing. He was once a morphine and opium addict a lot of his lifestyles and commenced writing crime novels whereas he was once an inmate on the Swiss insane asylum Waldau.

perhaps this merits more. i have been spoiled, I think through humans like Frisch and Durrenmatt. The oddest factor approximately this booklet is how so no longer extraordinary it is. The author, to cite from the e-book 'died elderly forty-two, a couple of days earlier than he was once as a result of be married. clinically determined a schizophrenic, hooked on morphine and opium, he spent a lot of his lifestyles in psychiatric wards, insane asylums and, while he used to be arrested for forging prescriptions, in prison. He additionally spent years with the international Legion in North Africa...' As Manny said, it screams biopic...and they would not also have to make up a thing. Yet the e-book is understated, easy in that Swiss/German method I maintain noticing. It has attention-grabbing political and social issues to make approximately society simply sooner than international warfare Two. It seems at rural German Switzerland and makes that whatever yet dull. He is, I assemble a 'cult' determine in Europe and Germany's optimum crime fiction award is called after him. i will see why.
