The Two Art Histories: The Museum and the University

Charles W. Haxthausen

Many museum execs this present day think that university-based artwork heritage focuses an excessive amount of on conception and the social enterprise of art, neglecting the classy dimensions of the paintings object. Conversely, many lecturers think that museums became preoccupied with the hunt for funds and audiences, making them an more and more not likely resource of leading edge scholarship. during this provocative book, seventeen eminent figures from each side of the paintings world--museum pros and college scholars--explore the questions underlying the usually demanding courting among the 2 major branches of the discipline.

The Two Art Histories The Museum And The University
