# Till the Leaves Change by Erin Flanagan

Erin Flanagan

A revealing and insightful novel that captures the angst of becoming up through the writer of the "Angel at My Side" series. As 13-year-old Louise knows, formative years is a clumsy age. She's frightened approximately boys, school, and becoming in. yet her younger global takes an strange flip whilst her grandmother--a lady she's by no means met--arrives to stay out the previous few months Till the Leaves Change of her existence with Louise's family.

this is often my favourite publication by way of Erin Flanagan. This used to be a true yet heartwarming tale of a lady attempting to reconcile along with her family, in particular after her tough grandmother strikes in. It used to be a stunning story.
