This tale is extra enjoyable than a few of the others. It introduces us to Roxie, who I type of liked. Like Roxie, who wouldn't like to visit paintings each day the place there are beautiful men for all time and all around? The steam is from greater than simply the showers, and Vic is once more caught with an influence that's inconvenient and probably troublesome. (It bought me pondering that the tale offers another view of Shadowcat's skill from the X-Men, that's extra lifelike and will be visible as a distinct downside.)
