thoroughly revised through new authors, this Fourth version offers seventy five sufferer circumstances designed particularly to arrange scholars for scientific vignettes at the USMLE Step 2. each one case proceeds from leader criticism via diagnostic workup and remedy and contains buzzwords in historical past taking, actual examination, laboratory tests, imaging, and pathology. This edition's circumstances provide higher emphasis to pathogenesis, epidemiology, differential diagnosis, management, and issues and contain radiologic images, photographs, tables, and algorithms. a brand new two-page layout encourages scholars to learn the case presentation and formulate an preliminary prognosis ahead of turning the web page for the answer. The publication ends with twenty all-new board-format questions and answers.
