# Unter Dem Tagmond by Keri Hulme

Keri Hulme

Dieses Buch ist beseelt von der Mythen- und Symbolwelt der Maori. Es ist ein heftiges, in mehrfacher Hinsicht verstörendes Buch und spielt in einer entlegenen Gegend an der Küste Neuseelands, einer urwüchsigen, von Stürmen und Regen heimgesuchten Landschaft. Im Zentrum der Geschichte stehen drei Menschen, eine Frau, ein Mann, ein Junge, die eine seltsame paintings von Familie bilden, ohne zusammenzugehören, alle drei von ihren eigentlichen Möglichkeiten abgeschnittene, gebrochene Figuren. Zwischen ihnen kommt es in einem schicksalhaften Prozeß der Annäherungen und Mißverständnisse zu einem verzweiflungsvollen Drama widerstreitender Gefühle, und erst nachdem sie alle ihre individuellen Höllen durchmessen haben, finden sie ihre Unter Dem Tagmond shape des Zusammenlebens, dessen Schilderung freilich mythisch, quick religiös überhöht ist. Keri Hulme hat ein ungewöhnliches, äußerst eindrucksvolles Buch geschrieben über die Verlorenheit des einzelnen.

This novel is a shining jewel, one with an enormous flaw in its centre. it really is still, however, a powerful and gorgeous work, and Unter Dem Tagmond a highly bold one: an try to create a narrative that marries the disparate identities—Maori and European—that make up trendy New Zealand. there's a realism-based tale of friendship, self-destruction, and baby abuse, and there's a symbolism-filled tale of healing, catharsis, and the required fusing of Maori and eu civilisations. every one is well-told yet they don't healthy together. this can be a challenge simply because they're a similar story. Hulme's writing flickers and performs brilliant methods of sunshine and manages to—mostly—obscure that flaw, yet can't make it cross away. the 3 major characters are Joe, Kerewin, and Simon/Haimona. they're respectively Maori, Maori-European, and European. All are estranged from their households and cultures, and deeply damaged. In each one other, they locate convenience and solace, but additionally damage and pain. As I noted, a key tale aspect within the novel is baby abuse. It's bad and even as is an important set off for the eventual catharsis that occurs. while requested no matter if Simon/Haimona is a Christ figure, Keri Hulme, in an interview, answered that she doesn't like categorising him like that since it may possibly solid an approbatory mild at the baby abuse that occurs. She went directly to say that she desired to write approximately baby abuse since it is an issue in New Zealand that isn't acknowledged. i will be able to comprehend this desire. We can't, however, escape from the symbolic, non secular parts of the tale simply because they appear simply too rigorously suggestion out and constructed. we've a trinity; we now have a baby that's "sacrificed" to a better end; we've a father determine known as Joseph; we've got a mom determine who's a virgin; we actually have a strong picture of the 3 in one: it truly is most unlikely not to see non secular symbolism in this. To cap it all, the energy of the narrative derives its strength from that symbolism. those components are usually not forced. they bring weight by way of who the characters are and by way of their narrative arc. however the tale of those members has a robust present that runs counter to the symbolism of the narrative arc. it truly is tricky at the one hand to decry the abuse and while to approve the catharsis Unter Dem Tagmond that follows, yet this is often what the paintings demands. Unter Dem Tagmond That Hulme even manages to fuse this contradiction right into a complete is testimony to the power of

---

her writing. however it isn't enough. the strain is too great, and so, we see in it a crack, a cleavage that isn't healed. was once this intentional: a logo on a meta-fictional point of the cleavage among Maori and eu civilisation in New Zealand? If so, that will be too smart via half. i'd want really that Hulme Unter Dem Tagmond desired to inform this story, and attempted and didn't get to the bottom of its inherent contradictory Unter Dem Tagmond forces. by some means the eagerness at the back of that artistic impulse strikes me greater than the assumption of a chilly crafting of a intentionally mistaken work. [An attention-grabbing dialogue the e-book can be learn on the mum or dad Books Blog]
