V.M. 18 by Isabella Santacroce

Isabella Santacroce

Con questo libro nasce una nuova leggendaria eroina dal nome Desdemona, protagonista indiscussa dei Dodici Mesi Del Collegio Delle Fanciulle, che, come tutte le eroine dei romanzi dell'autrice di enthusiasts e Zoo, è destinata a incidere nella memoria dei suoi lettori. Con V.M. 18, Isabella Santacroce partorisce pagine senza alcuna pietà e censura, e proietta il romanzo in una dimensione mitica e nel solido impianto di una tragedia classica, creando un inedito decadentismo sadico-anarchico-libertino-estetizzante. "All'interno di collegiali ambienti dal decadente ed eccentrico fascino, los angeles libertina-criminale-esteta quattordicenne Desdemona, in compagnia delle altrettanto perverse e licenziose coetanee Cassandra e Animone, si sollazza tra orge e delitti, bevendo l'allucinatorio cocktail Reietto, e divertendosi a drogare talune vittime iniettandogli nei globi oculari il potente Acido Viperinico Liquido. Tali imprese crudelmente voluttuose si compiono sotto il nome del Manifesto Delle Spietate Ninfette, di cui fanno parte le tre feroci e lussuose fanciulle, abitanti insieme los angeles Stanza Furente, e dedite al massacro di ogni purezza. Le integerrime collegiali, le malfatte istitutrici Polissena e Pelopia, l'altera direttrice Andromaca, I. V.M. 18 V.M. 18 a. burrosa insegnante Giocasta, il consorte custode Agamennone, i dotati diciottenni Creonte e Minosse che frequentano il conservatorio poco distante, tutti sono in ostaggio delle Spietate V.M. 18 Ninfette che, traendone cospicui profitti, li condurranno dentro giochi colmi di scellerate turpitudini".

Non sarò breve (cit). Partiamo subito dal dire che questo è uno di quei libri che si piazza nella terra della mia mente denominata libri MEH, ovvero quei libri che non so dire se mi siano piaciuti o meno e in step with par condicio ricevono tre stelline al posto di dodici o meno quattro. Il che mi dispiace molto, perché sono fermamente convinta che V.M. 18 meriti sostanzialmente una critica o una lode netta. Mentre leggevo, sono stati in molti a palesare le loro opinioni in merito, chi definendo l'autrice un genio, chi vessandola. A me spiace according to lei, ma non ritengo che sia un genio, in alcun modo, così come non sono d'accordo con chi los angeles insulta. Parlando terra terra, il genere di questo libro (che potrebbe essere erotico – sicuramente più erotico di 50 sfumature di fuffa – o anche horror se andiamo a vedere) è definibile con il termine torture porn, sottogenere letterario dell'horror (che io gradisco a piccole dosi) in cui un vero genio quale è Garth Ennis si è da poco ristabilito con opere come Crossed, Crossed 2 o Caligola di David Lapham (autore a sua volta di Crossed 2). Inoltre l'attingere a piene mani da le a hundred and twenty giornate di Sodoma del Marchese de Sade fa fare different domande sull'originalità dell'opera. Trovo che se V.M. 18 fosse stato concepito come una photograph novel, piuttosto che come un libro, avrebbe avuto un successo mondiale. Lo dico nonostante non abbia mai letto nulla di Isabella Santacroce prima d'ora e quindi questo libro è stato un avvicinarsi al suo stile che definire barocco è dir poco. V.M. 18 inizia con una dedica che ho trovato abbastanza divertente, ovvero "A mio marito, Dio Onnipotente". Io sono atea e se dovessi scegliere qualcosa in cui versare I. a. mia fede probabilmente sceglierei i miti di Cthulhu, in keeping with cui story dedica non mi ha minimamente turbata, ma comprendo benissimo chi ha affermato di essersi sentito offeso da story scelta di parole, probabilmente mancando totalmente il captamento dell'ironia dell'autrice. Partiamo però dai personaggi che abitano questo universo senza nome e senza pace (non c'è una collocazione spazio temporale

precisa, se all'inizio pare V.M. 18 ottocentesca e inglese, alcuni termini los angeles fanno pensare moderna e italiana), personaggi che hanno invece nomi mitologici, a partire dalla protagonista, I. a. perversa Desdemona (che significa dal destino avverso", o "nata sotto una cattiva stella").Ella ci viene descritta fisicamente come una quattordicenne dal fisico acerbo e perfetto, con lunghi capelli neri e labbra colour del sangue a formare un cuore... e io subito ho pensato che l'autrice si sia voluta rappresentare (beata lei che a forty two anni può vantare il viso di una ragazzina, oserei dire).Per leggere I. a. recensione in step with intero: QUI
