i purchased this one years ago, whilst I gathered virtually each e-book approximately vampires i may get my arms on. Recently, I needed to reorganize my cabinets (i.e. make room for brand spanking new stuff), rediscovered this quantity and suggestion i might supply it a test at last. What I beloved concerning the book: it has very brief chapters, supplying you with the effect of a truly quickly read, and the writing used to be decent. However, the writer did a terrible task structuring the chapters and the plot as a whole. There are abrupt adjustments in locations/scenes inside a bankruptcy that may have deserved to be positioned right into a Vampire Royalty: The Rebellion new Vampire Royalty: The Rebellion Vampire Royalty: The Rebellion one to make the swap extra evident. Instead, I learn a sentence and used to be harassed concerning the thoroughly unannounced 'jump' in time and/or space. The characters remained flat and that i did not care a lot approximately them. whereas Vampire Royalty: The Rebellion the plot had its unique Vampire Royalty: The Rebellion moments, i used to be no longer sucked into the tale and located that it sufficed to skim throughout the ebook with out lacking out on crucial details.
