# Welcome to the jungle (The Dresden Files Graphic Novels)

Jim Butcher

Harry DRESDEN Enquêtes paranormales. Consultations & conseils. Prix attractifs. Harry est l' distinctif magicien de Chicago, et sa vie, ce n'est pas du tout cuit. Quand l. a. police vient le chercher pour résoudre une affaire de meurtre au zoo de Chicago, il y a de los angeles magie noire dans l'air. Et les créatures qu'il doit y affronter font passer gorilles et panthères pour de gentils toutous.

i am conversant in Butcher's Dresden Files, yet i have by no means learn any of the books. examining the picture novel, thus, turned my first Dresden experience, and it is a bit of a combined bag. Welcome to the Jungle follows none except the notorious Harry Dresden, sorcerer extraordinaire became mystical detective, as he Welcome to the jungle (The Dresden Files Graphic Novels) is taking on one more case: a brutal homicide on the Chicago zoo with too many unanswered questions for the Welcome to the jungle (The Dresden Files Graphic Novels) bad Chicago PD to handle; that is why they have referred to as Dresden, simply because his uniqueness is with the supernatural. As Dresden investigates, he begins to profit that there is way more to this example than meets the eye, past the common otherworldly things. The extra he digs, the extra he involves notice that he is facing forces more than his own, forces which can kill him if he is not too careful. Welcome to the Jungle is a reasonably stand-alone tale. One does not should have learn any of the Dresden books to get a transparent photograph of who Harry Dresden is or what he does. this could Welcome to the jungle (The Dresden Files Graphic Novels) suggest that enthusiasts of the novels may well locate this image novel a tad redundant, yet I comprehend the cause of attempting to make this graphically visualized addition to a well-liked sequence break away the books--it is bearing on a brand new market, and leaving them excessive and dry will be corresponding to occupation suicide. That said, there's a lot to be well-known approximately Welcome to the Jungle. The art within Welcome to the jungle (The Dresden Files Graphic Novels) reason general so far as American comics are concerned, with a glossy, vivid color and American-style structuring of characters. i am not an incredible fan of American-style comedian art, however it turns out to paintings fairly good for Dresden. He has that ruggedness that American comics are likely to show either in personality and build. My purely feedback of the artwork, and with the characterization, is the stereotyping of ladies during this piece, whatever Welcome to the jungle (The Dresden Files Graphic Novels) i might have concept had long past out of fashion years ago. The tale is not anything to get excited about, yet i guess that Welcome to the Jungle is Welcome to the jungle (The Dresden Files Graphic Novels) much less concerning the complexity of plot and personality development, and extra in regards to the injection of noir parts to provide a grungy, up to date impressive detective story. it kind of feels to work, even though a deeper plot may have helped pull issues out from the "shock-and-awe" jumps that existed within the plot. My largest factor with Welcome to the Jungle (which, through the way, is the identify of a track by way of an relatively Welcome to the jungle (The Dresden Files Graphic Novels) renowned 80s rock band) is the way in which the discussion is structured. a lot of the tale is instructed via Dresden's inner thoughts, which would now not be an issue other than the place his innovations indicate the manifestly obvious. In novel form, those forms of strategies will Welcome to the

---

jungle (The Dresden Files Graphic Novels) surely paintings good to set up Dresden's voice, yet right here it really is irritating. we will be able to see lots of the aspect within the image; telling us approximately such issues in Dresden's brain is redundant. Overall, i feel present fanatics of the novels could get pleasure from Welcome to the Jungle. whereas it truly is faraway from perfect, it does not lack in fascinating elements, and could have a lot to supply people who find themselves already accustomed to Butcher's fiction. New readers would possibly not take pleasure in it approximately as much, yet i guess that is determined by your tastes in photograph novels/comics. because it is, Welcome to the Jungle is an unique read.
