

"An astute novel of
manners...a dense, enjoyable read."
—The Los Angeles Times

*You Can Say
You Knew Me
When*

A NOVEL

K.M. SOEHNLEIN

AUTHOR OF *THE WORLD OF NORMAL BOYS*

You Can Say You Knew Me When by K.M. Soehnlein

K.M. Soehnlein

fascinating underachiever Jamie Garner resides a gorgeous slacker's existence in San Francisco throughout the dot-com boom-avoiding his stalled profession as a radio producer, slightly keeping directly to You Can Say You Knew Me When his relationship, yet surrounded through fun-loving friends. after which Jamie will get the decision he is continuously dreaded: Teddy, the daddy who by no means authorised him, has died. You Can Say You Knew Me When it is time for the prodigal son to return domestic to the subdivisions and strip department stores of suburban New Jersey to stand the emotionally barren kin he left at the back of years ago. Caught among the guilt he desires to shake and the grief he cannot express, Jamie takes solace in a field of memorabilia he unearths within the attic, marked "1960," the yr his father spent in San Francisco yet stored secret. Jamie is mainly attracted to a moody, enigmatic picture of the lovely Dean Foster, his dad's closest friend, who headed west then mysteriously disappeared. Determined to release the secret of his father, Jamie seeks out the artists and poets, the loose spirits and wild males pointed out in Teddy's letters to Dean. it is a trip that takes him deep into the subcultures of San Francisco, from the bohemian heyday of the Beat new release during the net mania of his modern world, whilst it unleashes anything primal, hungry, and a little bit risky in Jamie. As his look for the elusive Dean Foster turns ever extra obsessive, undermining his friendships, his income, and his constancy to his partner, Jamie is pressured to make a decision what he's prepared to probability within the pursuit of the truth.

Jamie Garner is the size version thirty-something suffering creative-type from San Francisco who has flirted with success, either in my opinion and professionally, yet simply can not seem to shape a long-lasting courting on both end. Author K. M. Soehnlein introduces Jamie, it slow within the mid-90s, en path to his New Jersey native land for the funeral of his father, whom he hadn't spoken to within the final 5 years. despite their tumultuous relationship, Jamie is still hooked up to his sister, Deirdre, who cared for his or her father in his ultimate days. As teenagers, Jamie and Deirdre misplaced their mom unintentionally in the course of a regimen medical institution visit, an occasion from which their dad by no means recovered emotionally. While You Can Say You Knew Me When dealing with his father's belongings, Jamie discovers evidence, within the type of letters to and from former You Can Say You Knew Me When acquaintances, that his father was once a beatnik within the early 60s and rubbed elbows with the likes of Kerouac, Burroughs and Ginsberg. There additionally seems to be a connection among his father and his sister Katie's brother-in-law, Danny--better referred to as B-movie actor, Dean Foster. Jamie is decided to determine extra concerning the genuine nature of his father's dating with Dean--was it sexual, perhaps? Jamie's quest to profit extra approximately his father, which he believes will in some way aid him greater comprehend (and perhaps, forgive) him, turns self-destructive, and has a harmful impression on his finances, employment prospects, and above all, his two-year dating with Woody, a dot-com lackey mired within the trust that his company's IPO will supply immediate security. The novel is readable and there are adequate twists and turns to maintain you interested. i discovered the characters from his father's lifestyles to be extra attention-grabbing than these You Can Say You Knew Me When from Jamie's life, except for his sister, Deirdre, whose character is the main real looking and

relatable. during the story, Jamie has moments of epiphany or religious mirrored image which are both thoroughly unfounded or just (for loss of a greater word) hokey. Otherwise, whereas Jamie is not altogether likable, his fight with kinfolk and identification is universal and helpful of the You Can Say You Knew Me When reader's empathy.
