Zoogeomorphology: Animals as Geomorphic Agents

David R. Butler

Zoogeomorphology is the 1st and merely ebook of its style to check the position animals play in sculpting Zoogeomorphology: Animals as Geomorphic Agents the Earth's surface, therefore integrating the information and literature from the fields of geomorphology and flora and fauna ecology. Dr. Butler describes how animals of all kinds--from small bugs to giant mammals reminiscent of elephants--can act as brokers of erosion, transportation, and deposition of sediment. He discusses particular strategies linked to the range of animal affects in geomorphology: burrowing and denning, nesting, lithophagy and geophagy, wallowing Zoogeomorphology: Animals as Geomorphic Agents and trampling, nutrients caching, excavating for food, and dam development through beavers.

the best e-book within the background of the World! Or on the very least, the simplest publication I ever wrote. :-)
