What do elephants, killer whales and your loved ones puppy all have in common? education with Zoomility! it's been operating for animals in zoos and aquariums for years. And now, you should use it to your personal training, with support from Dr. gray Stafford. because the book's foreword written by way of Jungle Jack Hanna explains, education may be approximately supporting animals succeed, no longer boosting our egos. that concept is on the middle of Zoomility, a mixture of humility and Dr. Stafford's years of expertise education animals at zoos and different facilities. utilizing purely confident reinforcement, by no means punishment, Zoomility outlines steps you could persist with to educate your animal calm, cooperative, and intricate behaviors that might delay in any situation. utilizing Zoomility's 3R's (Request, Response, Reinforce) you possibly can educate any animal, despite age or prior habit issues. Dr. Stafford contains dozens of "recipes" Zoomility: Keeper Tales of Training with Positive Reinforcement to steer you thru precious behaviors like sit, stay, and a lot more. And utilizing the innovations you will study in Zoomility, possible create your personal recipes to effectively form any behavior. what's Zoomility? In permitted zoos and aquariums everywhere, keepers are utilizing the habit instruments that marine mammal running shoes have honed for many years to certainly make stronger every type of useful, complex, and cooperative behaviors with birds, mammals, reptiles, or even fish! the good information is, the instruments defined listed below are effortless to profit and may paintings along with your animals too, despite species or breed. should you teach utilizing purely confident reinforcement, the richer existence you and your animal will adventure jointly a long way outweighs any preliminary funding in time, patience, and effort used to switch your personal behavior. Plus, utilizing optimistic reinforcement is fun! As you start to work out your animal succeed, you too gets lots of reinforcement of your own. operating in a zoo has printed an easy truth: strong education judgements frequently begin with leaving one's ego on the door. each one bankruptcy of Zoomility starts with a few own stories of zookeeper humility or zoomility. performed properly, education is as a lot approximately having enjoyable because it is set supporting animals achieve the area during which we ve put them, even if or not it's a zoo, a kennel, a natural world preserve, a stable, or our personal home. So this booklet was once written to supply readers important education advice in addition to a glimpse on the funny aspect of operating round animals with optimistic reinforcement. when you consider that now not all animals have an analogous education history, Zoomility is split into parts. the 1st starts off with a dialogue of some of the best advantages of educating with no utilizing strength and punishment. utilizing the 3R's, running shoes can count on to construct better standards behaviors and a much better courting with their animal, person who is predicated upon mutual trust, now not fear. this primary 1/2 Zoomility is ultimate to any animal expert or puppy proprietor who's simply beginning out with younger or naïve animals. the second one a part of Zoomility is geared toward assisting these people who've made a number of education blunders alongside the way, together with education with punishment. half starts off with a few pointers on how puppy vendors can stay reinforcement-only running shoes even if animals show undesirable behaviors. The target is to aid readers keep away from the temptation of utilizing punishment. Zoomility concludes with an in depth examine one animal whose heritage were a combined bag of methods, environments, expectations, coach

experience, and severe aggression in the direction of humans. His tale highlights the superb advancements that may be accomplished with a planned and punctiliously completed behavioral plan utilizing basically confident reinforcement.

A needs to learn for a person operating with behavior...animal or people. In such a lot of areas inside of this book, the Zoomility: Keeper Tales of Training with Positive Reinforcement phrases "animal" and "keeper" will be substituted for "student/child" and "teacher/adult", respectfully--in series in addition as, well, respectful of these involved. The behaviors are usually not the same, however the notion for concentrating on a particular behavior, breaking it down right into a hierarchy of sequential steps, then software of acceptable optimistic reinforcers. Thanks, Grey, for sharing this excellent ability of yours within the book, in the course of 'keeper talks', and at conferences!
